DETAILED ACTION

Allowable Subject Matter

Claims 1-7 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or teach a control system for a permanent magnet linear motor having a feedback control function and a feed forward control function having a demand signal applied simultaneously, with the feedback and feed forward functions summed together and where the feedback control function is a PID controller as recited in claim 1. While the components of the claimed invention exist in the prior art, no reason has been found for combining those components to produce the claimed invention.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Turner 5,852,355 A, Yutkowitz 6,281,650 B1 and Tateishi 6,396,234 B1 all disclose devices which utilize both feedback and feed-forward elements in the control of an electric motor but none of these references combine feedback and feed forward devices as claimed by Applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance." Any inquiry concerning this communication or earlier communications from the examiner should be directed to Judson H Jones whose telephone number is 703-308-0115. The examiner can normally be reached on 8-4:30 M-F.
